

## A Bed, Clothing, Food from You to Children in Need

LEFT: Jaquita had been sleeping on the floor in the transient motel room her homeless family lives in. Her mom, Rita, has been experiencing a difficult pregnancy. It wouldn't be safe for Jaquita to sleep in the double bed with mom that is provided by the motel. If another small bed were placed in the room, the weekly rate would go up. Rita couldn't afford it. Because you care, DTM was able to provide a bed for Jaquita in April. DTM also provided dishes, glassware and silverware so the family could utilize the kitchenette. Pray for Rita's safe delivery of the baby and for this family to get out of homelessness soon.

RIGHT: When Robbi moved back with her mom she changed schools. Her new junior high has a dress code and Robbi only had one white blouse to wear. Your support sent us to Wal-Mart where Robbi found four nice tops for school. She is modestly wearing a pair of her mother's used sneakers to school. She's a real sweet spirited young lady. Please pray for her. She wants to become a doctor.

Destiny  
and mom,  
Michelle

Do you ever feel like your kitchen is too small? Be thankful for what you have!

LEFT: Michelle's oldest daughter, Destiny, unloaded our food basket onto the small table in the windowless kitchenette. She started cooking one of the chunky soups. How good it is to have a place where you can cook if you're stuck in a motel room. How good it is to have food to cook! Some families only have a microwave and small refrigerator in a single bedroom.

Thinking back to Michelle's comment about baths, most transient motels do not have bathtubs, only showers. Moms miss those bathtubs.
